PETERS' INESTIMABLE PILLS, AND MEDICATED LOZENGES!

DETERS VEGETABLE PILLS have now been in general use more than ten years, and the public, taught their value by experience of their wonderful curative properties, have accorded to them a celebrity unparalleled in the history of medical science in this or any other country.—Testimonials of cures from every quarter of the Union, and from individuals in every condition of life, are their credentials, and unless thousands of respectable men have voluntarily entered into a conspiracy to deceive their feflow citizens, these preparations act upon the human system in a manner little short of miraculous.

We are told by a certain class of empiries, who understand nothing of the functions of the vital organs, and are ignorant, probably, of their relative positions, that medicine acts inner the probably of their relative positions, that medicine acts inner the sense without the necessary digestive process which all digestible matter which enters into the stomach must underzo.

PVTERS' VEGETABLE PILLS and CATHARTIC LOZENGES do indeed PURIFY THE BLOOD, but it is by purifying the chyle, bile, and all other fluids from which blood is generated. In all cases of dispensia, cholic, jaundice, flatulence heart-burn, diseases peculiar to females, diarrheain short, in all complaints or affections of the stomach, liver or intestines, they will effect a cure when all, other RMEDICINES HAVE, FAILED. Of this we have ample proofs to exhibit to all who wish to investigate them.

PETERS' COUGH LOZENGES, by their superior efficacy, have distanced all competition. The aggregate of all the cough nostrams soil in the country does not equal the sale of this single preparation. All pulmonary complaints that are not beyond the reach of remedy, yield to Peters' Cough Lozenges.

SOMETHING NEW IN GOTHAM—HouseKeepers Take Notice,—Walley's Patent Gothic Cooking
Range. This important improvement, comprises every possible convenience that can be applied to a Cooking Range, and
will recommend itself to every house-keeper for its beauty,
simplicity, convenience, durability and economy. It is made
entirely of cast iron, (Gothic style) 21 inches high, filled up
to a level surface; will do double the work of the ordinary
range with one half the quantity of fuel, and can be set in any
fire place by an ordinary mason in the space of 3 or 4 hours.—
It has the following advantages over all others, viz: A large
size Oven on one side and an extra portable Oven on the top
of the other side, which can be used or not as convenient; it is
so constructed that a part or the whole of the range can be
used, and by the adoption of a false grate can be used with the of the other side, which can be used or not as convenient; it is so constructed that a part or the whole of the range can be used, and by the adoption of a false grate can be used with the greatest economy in summer or winter; thus obviating the necessity of burning a large quantity of fuel to do a small quantity of work. Also a new arrangement for heating a large quantity of water for Baths or Culinary purposes, together with a contrivance for heating rooms which can be attached if desired. The inventor having spent a great deal of time and labor in perfecting this Range, can confidently recommend it as the very best and most economical ever offered to the public, and would invite those about erecting buildings, or introducing Croton Water, to call at 106 Fulton st. between Nassau and William sts., or at Geo. F. Merklee's, No. 98 Bleeker st., and see the operation of this range before purchasing elsewhere. [s29 lm*] MERKLEE & WALLEY.

PANIEL LANE, 700; Greenwichstreet,
North-west corner of Amos st., New York. DR. BOURGEOIS'S SPRUE LOTION.—This preparation was used for many years with uniform success in a very extensive practice by its inventor, Dr. Bourgeois, and is admitted by our most eminent medical men to be the most safe, speedy and infallible cure for that distressing disease, the Sprue or Thrush, more commonly known as the Nurse's Sore Mouth, which is so terrible in its consequences to infants and mothers, that science and research have yet discovered.

discovered.

It is well known that from the disease in question, simple as it may at first appear, fatal results frequently arise both to mother and child. The sores or pustules communicate the infectious matter from the latter to the former, producing sore nipples, puerperal fever, and various other disorders, and sowing the seeds of slow consumption, which consigns so many young mothers to an early grave. This wash has been extensively used in private and domestic practice throughout the Union for some years, and in France and England, where she has agencies established, it is prescribed by the most eminent of the faculty as a certain specific. It is now prepared by MRS, WATSON, late Madam Bourgeois, to whom alone the secret of its composition is known, and who, from her own experience, running through a series of years, can positively aver that it will to all, cases eradicate the complaint in two or three days.

the first physicians and surgeons of New York have given their decided preference to this Truss as you can graduate the pressure from 1 to 50 pounds on the rapture without a back pad, which does so much injury to the spine. A fair trial being the best test of its superiority, it is applied and six days trial given, and if it does not retain the rupture, while performing every kind of exercise or coughing, and give perfect ease—in a word, if it is not satisfactory in every respect, the money is cheerfully returned and this is the only condition on which you should buy any truss. A permanent core is easily effected, and warranted if directions are followed.

Offices are fitted up at No. 13 Beekman street, one door from Nassau, exclusively for applying this truss, and all are invited to come and try for themselves.

HULL'S TRUSSES .- Notice to Rup tured Persons.—Persons afflicted with ruptures may rely upon the best instrumental aid the world affords, on application at the office, No 4 Vesey-street, or to either of the agents in the principal towns in the United States. A HEALTH.—It is strange that many should ransaak the wide world for antidotes to disease when the kind AUTHOR OF NATURE has furnished in every clime the best reveatives and cures for their own peculiar diseases.

THE WILD CHERRY IS OUR PANACEA or all affections of the Lungs and Liver.—Listen to the proof:

HADDONFIELD, N. J. April 20, 1843.

On or about the 13th day of October, 1841, I was aken with a violent pain in the side near the liver, which continued about five days, and was followed by the breaking of anulcer or abscess inwardly, which relieved the pain a little, bit caused me to throw up a great quantity of offensive matter, and also much blood. Being greatly alarmed at this, I applied on a physician, but he said he could do but little for me except begive mesome MERCURY Fills, which I refused to take. Many other remedies were then procured by my wife and friends, but nonedid me any good. The discharge of blood and corruption still continued, every few days, till at last it became so offensive that I could scarcely breathe. I was also seized with a violent cough which at times caused me to raise much more blood than before. My disease still grew worse till February, when all hopes of recovery were given up, and my friends all thought I must die of a galloping Consumption.

At this time, when apparently my life was drawing near its close, I heard of Dr. Wistar's Balsam of Wild Cherry, and got a bottle, which relieved me immediately, and by the use of only three bottles of this medicine all my pains were removed; my cough and spitting of blood and corruption ensirely stoppy and in a few weeks my health was so fair restored as to enable me to work at my trade, (that of a carpenter,) and up to this time I have enjoyed good health.
